

A heatmap titled "Sample Area Interspecific Competition" showing the intensity of competition across a grid of sample areas. The x-axis represents longitude from -200 to -190, and the y-axis represents latitude from 60 to 70. The color scale ranges from 0 (dark blue) to 0.012 (yellow). The highest intensity (yellow) is observed at approximately (-197, 67). Other areas of moderate intensity (orange/brown) are scattered, particularly around (-198, 67) and (-196, 65). Most of the grid shows low to moderate intensity (blue/cyan).
